# SUPER SMASH BROS. Melee

## 【CONTENTS】

The object of Super Smash Bros. Melee is to attack your opponents and send them flying from the field of battle.

**1**

When a match starts, use the many techniques at your disposal to take the fight to your foes.

**2**

When your attack succeeds, your enemy's damage percentage, displayed at the bottom of the screen, increases. When it reaches a high number...

0% 3%

32% 108%

**3**

...use a powerful Smash Attack to blast your opponent off the screen!

32% 126%

## TIP #1 — Opponents with a high damage percentage fly farther when struck!

The distance enemies get sent flying is proportional to the amount of damage they have taken. Try to raise your foe's damage percentage as high as possible before attempting finishing blows.

**When damage percentages are...**

...low, it is hard to send opponents flying.

...high, opponents go sailing.

19% 391%

## TIP #2 — As long as you can make it back to the stage, it doesn't matter how far you've been sent flying away.

When an opponent smashes you and sends you soaring, don't give up! You can sometimes use your midair jump and 🔘 Special Move to cover ground and return safely to the playing field.

When you're sent flying...

**SUPER SMASH BROS. Melee**

## Things to Remember About Saving and Memory Cards

**1**
★ Insert the Memory Card into Memory Card Slot A.
★ To save Game Data, the Memory Card must have eleven (11) blocks of space open.

● To save Snapshots in Camera mode, you'll need additional blocks (see page 33). It's best to insert a Memory Card with a large number of empty blocks in slot B.

**2**
★ Before beginning play, follow the on-screen instructions and create a file for this game on the Memory Card. (If there is already a file, all of your game progress will be saved to it automatically.)

● Follow the on-screen instructions for saving Snapshots.

**3**
★ Game Data is saved during game play. Do not remove the Memory Card during game play.

**⚠ NOTE**
During game play, do not repeatedly insert and then remove Memory Cards, press the POWER Button, or reset the game. Doing so may erase saved game data or cause damage to Memory Cards or the game console.

*There is no Memory Card in Slot A.*

**4**
★ When finishing game play, it is recommended that you return to the title screen before turning the power OFF.

Please refer to the Nintendo GameCube instruction booklet (Pages 18-20) for directions on how to format and erase Memory Card files.
